"A most valuable event. This is the first time I have personally attended, but I found it very useful!"

"Thanks for an excellent and enjoyable conference, with brilliant organisation!"

"Best event I have been to. The presentations were excellent, clear and full of information appropriate to us as a user of Line 500. The ability to network, talk with other users, Software houses and Sage to find out information at any point during the two day event has enabled us to develop our system within the first week of coming back."
